UEFA RESEARCH GRANT PROGRAMME
Edition 2011

INTRODUCTION

Over the last few years UEFA has increasingly engaged with the academic community by establishing a series of initiatives that continue to provide research-based findings to help the European football family to reach more informed decisions. One such initiative is the UEFA Research Grant Programme.

Through this grant programme, UEFA is committed to supporting the ongoing work of doctoral and post-doctoral researchers investigating European football. UEFA's core mission is to develop European football at all levels of the game and promote the principles of unity and solidarity. Therefore, by shedding new light on football and the myriad ways in which it interrelates with society as a whole, quality research can help UEFA to fulfil its mission. In addition to research in the social sciences, the programme is now open to proposals in the field of medical sciences.

The UEFA Research Grant Programme is an excellent opportunity to encourage the work of both prominent and aspiring researchers working within the field of European football. It is thus with great pleasure that I encourage you to submit a research proposal to be taken into consideration by the UEFA Research Grant Jury.

Yours in football

Gianni Infantino
UEFA General Secretary

ELIGIBILITY

Candidates applying for a grant must either:

- have obtained a doctorate and currently hold a research position at a university or equivalent institution; or
- be enrolled as a doctoral student at a university or equivalent institution and currently be preparing a doctoral thesis (the proposed research project must have a clear link with the field of research of the doctoral thesis).

All applicants must be proficient in at least one of the official UEFA languages (English, French or German).

No joint applications will be considered.

Research proposals from the following research disciplines may be submitted for consideration by the UEFA Research Grant Jury:

- Economics
- History
- Law
- Management
- Political science
- Sociology
- Medical sciences

Although all research proposals are welcome, proposals addressing the UEFA priority topics listed below are especially encouraged:

- Governance and regulation in European football
- Specificity and autonomy of sport
- Challenges facing professional football (e.g. illegal betting, doping, corruption)
- Women's football
- Participation levels in football (grassroots, amateur)
- Youth development and movement of players
- Evolution of the game
- Playing football in extreme environments (e.g. cold, heat)
- Adequate number of games per season for a football player

APPLICATION REQUIREMENTS AND PROCEDURE

Applications must be sent by email or by post to UEFA using the contact details provided at the end of this document. Applications must reach UEFA by 31 March of each year in order to be considered for the subsequent Research Grant Programme cycle. Postal applications must be sent by recorded delivery. The UEFA administration will acknowledge receipt of each research grant application, unless any of the documents listed below are missing, in which case the application will be rejected and returned to sender.

Applicants must submit to UEFA a document of no more than ten sides containing at least the following sections:

- Introduction;
- Research question(s) and hypothesis(-es);
- Justification for the research (contribution to European football);
- State of knowledge, literature review on the research topic;
- Description of research undertaken to date by the applicant on the topic or in related fields;
- Methodology;
- Main results expected;
- Time line;
- Selective bibliography;
- List of applicant's academic publications;
- List of prior bursaries awarded to applicant;
- Detailed budget in euros, justifying the amount requested (maximum €20,000).

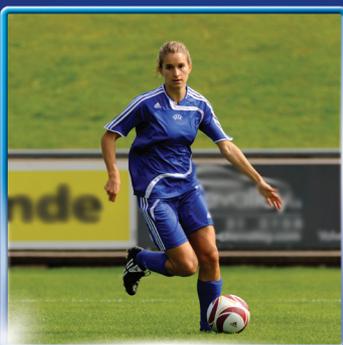

Applications must be typed in size 12 font (1.5 line spacing) on loose, numbered, single-sided A4 pages. No applications of over ten pages will be considered.

Moreover, applicants must provide a separate, one-page executive summary of their application (typed on a single side in size 12 font). This summary must make mention of the justification for the research, the research questions and hypotheses, the planned methodology and the total financial contribution requested.

Finally, applicants must attach the following documents:

- Official application form, duly completed;
- Detailed CV;
- Copy of passport;
- Certified copy of main academic certificates;
- Proof of registration as a university doctoral student OR copy of doctorate certificate and proof of employment at university or equivalent institution;
- Two academic articles published by the applicant in a peer-reviewed journal (or presented at an academic conference), ideally in fields similar to that of the proposed research;
- Three letters of recommendation.

SELECTION PROCESS

Applications received that meet the requirements set out in this document will be examined by the UEFA Research Grant Jury. This jury comprises a chairman, four representatives of the European football family and four academics known internationally for their work linked to European football/sport. The UEFA administration may be involved in the selection process in an advisory capacity.

The official application form, together with the UEFA Research Grant Programme Regulations, is available upon request from the contact address provided below. These documents can also be found on www.UEFA.com, in the section UEFA – Stakeholders – Universities. The entire application must be written in one of the three official UEFA languages (English, French or German). It is imperative that all applicants read the UEFA Research Grant Programme Regulations before filling in the application form. In case of any differences between the English, French and German versions of these regulations, the English version will prevail.
